B: Put the two earbuds back to the charging box, close the lide of the charging box, the earbuds will be turned off automatically.

3

Pairing

Pairing method 1:

When the earbuds are power off and not in the charging box, long press the button each earbud for 2 seconds, the LED flashes blue and white, and till the left earbud flashes white and blue, the right earbud flashes white, it means they paired together successfully.

Pairing method 2:

When the earbuds are in the charging box, then open the cover of the charging box, the LED of each earbud flashes blue and white, and till the left earbud flashes white and blue, the right earbud flashes white, it means they paired together successfully.

Whatever we use method 1 or method 2 as above, we could connect the paired earbuds with our smart phone or bluetooth devices, find the bluetooth name "IP010 X" in your phone and connect it with the earbuds. If it prompts a pin number, please type "0000" to pair.

Important note:if the earbuds cannot be paired successfully before pairing with smartphone, then please take any one of the earbuds out of the charging box, long press the earbud 6 seconds and you will hear a voice of "power off", then long press the earbud 8 seconds and you will hear a consistant voice of "power on" "pairing" and "dududu, dududu", when you hear the last voice of "dududu, dududu", release the button, put the earbud back in the charging box. Do the same processes for the second earbud. Close the cover of the charging box, and then open it, the two earbuds will be automatically paired.
